INTERNSHIP

Python Django Intern - Snapflix

- Developed web applications using Python and Django, focusing on backend services and database integration.
- Collaborated in optimizing website performance and implementing API features

Android Development Intern - 360 Design

- Gained hands-on experience in Android development by working on real-world projects using Java/Kotlin and Android Studio.
 - Learned to design user-friendly interfaces and implement app features through practical, on-the-job training.
-

PROJECTS

- **Recipe Sharing Website**: Created a platform where users can upload, share, and like recipes, similar to a social media site.
 - **Video and Photo Editing**: Edited and enhanced videos and photos for content creators to improve visual appeal and engagement.
 - **Stopwatch Web App** : Built a functional stopwatch app using HTML, CSS and Javascript.
 - **Portfolio Website** : Designed a personal portfolio to showcase technical projects and achievements.
-

CERTIFICATION

- **Python Django Development Internship Certificate** – Snapflix
 - **Android Development Internship Certificate** – 360 Design
-
